WORLD PREMIERE

THE MOONLIGHT

Quinting continues to WOW the watch making community with firsts: the first and only transparent watch, the first and only watch with a sapphire movement, the first and only watch with counterbalancing forces. Now Quinting releases yet another first: The Moonlight.

Quinting created a movement exclusively for this watch, the only “true” moon phase watch. It is the first in the world where the moon revolves around the earth, accurately showing its phases. Meanwhile, every hour a comet shoots around the earth and the moon, always ready to be wished upon.

This limited edition is composed of 360 unique pieces, representing the 360 degrees of the earth. Each piece will have a different view of the earth, painted by hand with enamel.

Quinting has the pleasure of certifying that this watch is a unique piece within the Art Collection.
