A message from Pascal Berclaz

The idea of designing a completely transparent watch has occupied the greatest minds in the watchmaking profession for more than 100 years. All attempts to achieve the dream of seeing the hands of time floating on wrists failed and everybody remained convinced it was impossible to realize. That is why I can say with pride that the Quinting manufacture leapt into a new era in watchmaking history by making this dream come true.

Five engineers pooled their knowledge; millions of dollars were invested throughout 7 years of research and development. The result was that we managed to craft the first and only 100% transparent chronograph in the world. We were able to create our own identity as a manufacturer, that is impossible to imitate or to copy.

As true luxury objects, Quinting watches appeal to dreamers who are not looking for what they need but for what they desire. Besides providing highly innovative and exceptional products, we provide a mystery, the mystery of transparency, the mystery of Quinting.

And now I present you our Street Art Collection, please enjoy.

Pascal Berclaz
President and CEO of Quinting SA

Quinting's Street Art

Quinting introduces you to its Street Art Collection,
one that consists solely of unique pieces.

With more than a decade spent taking up challenges just as complex each one, Quinting evolves now with new collections both loyal to its original convictions and one more time outside the box. Since 2000, the ingenuity of Quinting timekeepers has been well proved, thanks to the realization of traditional Swiss horology's oldest dream: seeing the hands floating on the wrist in a 100% see-through watch. Today, the Manufacture assumes its choice to go through an artistic path with the Art Collection, within each model is a unique masterpiece hand decorated with enamel.

With its latest Street Art Collection, Quinting creates unseen models involving four different scenery pieces, stationary or rotary. Another step in the astonishing kinetic art dear to Quinting!

All Street Art Collection watches use a Quinting-tech 5 Movement

- Guarantee: 2 years

High Street Art

What if subversion wasn't in the streets anymore but on the wrist of enlightened souls? When Quinting first launched its Street Art Collection, graffiti still was an underground art only saw on your neighborhood's walls. A few months later, the biggest world-famous brands successfully blend luxury, fashion and street art.

With the Street Art Collection, Quinting does not only pick some popular designs but creates unseen motifs directly coming from the brain of its exclusive artists. All the models are unique pieces, hand-decorated with enamel and involve four different scenery pieces, two fixed, one turning at the speed of hours and one at the speed of minutes. Another step in the astonishing kinetic art dear to Quinting!

Each watch is declined with exclusive paintings on canvas and the watch box. All three pieces create together a real work of art, a coherent whole different for each watch. All the designs comport superluminova elements to create different motifs day and night, just as the different faces of a street the day or at night.

The following watches are what is possible when
Quinting's artists put their imaginations and talent to
work

Inspiration at the Crossroad

Quinting is a worldwide known luxury manufacture, active in more than 30 countries around the world, counting dozens of points of sell. When its sales persons travel around the World, they always leave the office with the same goal: keep amazing watch enthusiasts with both traditional watchmaking technicalities and innovation.

That is why they are curious of every culture and History they meet on their travels, shaping their dreams. From those trips and human encounters, designs are made in the Quinting team minds and then conveyed to our artists to turn immaterial ideas into physical pieces of art decorated with high quality enamel.

New York City

6th Avenue Designs

USA - New York 6th Avenue

6th Avenue for the New Yorkers, Malcolm X Boulevard in Harlem, but officially 'Avenue of the Americas' since 1945, this street presents as many names than faces. You will cross commercial (Macy's, biggest shop in the world), cultural (Radio City Music Hall) or luxurious (Rockefeller Center) parts of the City by walking on this famous street.

What better way to discover the Big Apple from home than gathering in a unique piece of art Harlem, Manhattan and Central Park? You will definitely do it with this Street Art dedicated to the biggest city of the United States of America. Let's fashion and originality float on your wrist!

USA - Washington Pennsylvania Avenue

The fifty stars country, as much as its states, as much as the different dreams you can expect to realize when you arrive there. This watch of the Quinting Street Art Collection pays tribute to the Federal Capital of the United States of America, Washington, and more specifically to the Pennsylvania Avenue.

Thomas Jefferson, Abraham Lincoln, John F. Kennedy or even Bill Clinton daily stepped its ground during their two years as President; Martin Luther King wrote his famous "I have a dream" there. Place steeped in history and symbols, its miniaturization within this Quinting timekeeper will show to the world the defender of piece and the patriot inside you.

China - Tianjin Binjiang Dao

World's most populous country, multi-faceted bubbling nation, China is undoubtedly one of the most fascinating countries to explore. Tianjin is an absolute must if you are planning to visit the area. With its status of Direct-controlled municipality of the People's Republic of China, Tianjin is the biggest coastal town and also the most important urban area in Mainland China.

Binjiang Dao is certainly one of the most fascinating streets in town, the one you will not miss to stroll in if you feel like shopping in both local shops and major international brand names. A senses and cultural melting pot you will be proud to incarnate by wearing this timekeeper on your wrist.

Oxford Street

Nothing less than the longer commercial street in the world! With its one and a half miles long and its few 300 shops, Oxford Street undoubtedly deserves its nickname of the “English Champs-Élysées”. Exit at Marble Arch and let loose as the street takes you until Oxford Circus and then Tottenham Court Rd, the opportunity to get some rest in a pub in Soho after a long shopping day.

This Quinting timekeeper is anything like the street it represents: both young and trendy, feminine and full of life. It will let you show all your facets, as the mobile settings inside your watch will leave the world discover all the effervescence of this international street, in daylight as well as at night, thanks to Quinting very special phosphorescent pigment able to let appear during your nightlife what no one could suspect on daylight.
